

What Can I do with the Free Toast Host Website?

I am not a Toastmaster, yet...

I can use Toastmasters Find a club and look at the club's websites.

I can see member profiles if they are public... hey they have friendly faces!

I can see photos of activities they have done.

Here are the links to their Facebook, Twitter and they are on MeetUp too.

I am the club President...

I can write a great welcome message for guests. I have to make sure the links are correct on the find a meeting page and verify my club website is the greatest.

I am the Vice President - Education...

I can check member's progress and assign mentors to help members advance.

I am the Vice President – Public Relations...

I can make sure the names of our guests are entered on the membership page so when we lose our guest book, we will have a record of visitors. I can email the guest from the website when we have a special event. I can even email the previous members and invite them too.

I am Vice President - Membership...

I can enter the names of our members in the membership list and make sure their information is correct to contact them. I can send emails thru the club website to the members.

I am the Treasurer...

I can email members to inform them its renewal time. I can track who has paid and who still owes. It's a great way to remind members' dues are due.

I am the Secretary...

I can file all my club minutes on the club website so they are never lost. I can email the minutes out using the website email list.

I am a club member...

I can see informational files about club roles.

I can sign up for meeting roles ahead of the meeting, even weeks ahead.

When I sign up to present a speech, I can write the title and my introduction for the Toastmaster right there. It has the link to print my evaluation form.

I can request a mentor.

I am adding my photo with a smile on the member profile and make it public to welcome guests to my great club.
